

## SENTENCED TO BE HANGED.

The Jury return a Verdict of "Guilty" in the King Murder Case. Reserved Case Granted the Defence.

Chas. King was this morning convicted of the murder of E. Hayward at Lesser Slave Lake and sentenced to be hanged on May 10th. Mr. Biggar applied for a reserve case and the finding will be considered by the Supreme Court on June next month.

When Court re-assembled at 10 o'clock, the court room was crowded and the hallways approaching the door packed.

A few minutes later the jury on the King case entered and took their places. They answered to their names and the clerk asked if they had reached a verdict. The foreman replied in affirmative.

"How find you, guilty or not guilty?"

"Guilty."

The verdict was then read and the jurors signified their approval.

His Lordship addressed the jury and advised them that they were discharged from further attendance.

Mr. Biggar, on behalf of the prisoner asked for a reserved case on three points. His Lordship allowed the request. Mr. MacDonald said he did not press for sentence. His Lordship did not see anything to be gained by leaving the sentence until the session on June.

The prisoner stood up and His Lordship asked if he had anything to say why sentence should not be passed. For a moment he did not appear to comprehend, then replied, "Nothing that I know of" and remained impassive.

The court resumed: "As I explained to the jury last night the verdict of guilty leaves me no alternative but to pronounce sentence. The sentence of this court is that on May 10th at the prison of the North West Mounted Police in Fort Saskatchewan, you be hanged by the neck until you are dead."

### KING'S APPEARANCE.

Chas. King, the prisoner now on trial for the murder of his former partner Edward Hayward, is listening with close attention to every detail of the mass of circumstantial evidence being arrayed against his chance for life and liberty. Never moving from a fixed position with his eyes piercingly fixed upon the witness the prisoner retains remarkable control of whom must be an intense anxiety. Unlike most men charged with such a horrible crime, the prisoner shows neither fear nor relief being apparently keyed up to a high pitch of suspense, but showing it only in his absorbed interest. When during the course of the trial, witnesses have testified and corroborated stories that have apparently proven the prisoner to have lied, and which make things look dark for him, King, without the least tremor or apparent fear, has looked every one right in the eye, as if questioning their right to bring such testimony against him.

### YESTERDAY'S EVIDENCE.

Yesterday morning the evidence was mostly corroborative of former witnesses, not introducing much new, but giving incontrovertible proof to a great deal already testified to.

Geo. Moran, a settler living near Lesser Slave Lake, was the first witness on the stand. His testimony briefly, was as follows: "The man King came to me one day last September and wished to sell me his complete trapping outfit, before described. After some dickerings I finally did, agreeing to give him \$210 for everything just as it was, he to stay at my house until the boat which he intended to take left for Edmonton. But one day Sergt. Anderson, who was in command of this N. W. M. P. post, came to my house to see King. I was present at the conversation and heard Sergt. Anderson ask him what had become of his partner, and he replied, 'He left for Sturgeon Lake the morning after we came to the reserve.' The next day the police came back again and this time arrested King. They took everything that had and did belong to King with them." Witness here identified most all the articles previously described in this testimony of other witnesses. In the cross-examination nothing new was learned excepting that witness said King told Anderson that Hayward had gone in the direction of Sturgeon Lake. The testimony of an Indian.

## IMMIGRATION AFFAIRS

DISCUSSED BY THE CITY COUNCIL.

City Council Met in Regular Session  
in the Council Chamber.

The city council met in the chamber Tuesday evening in regular session, all members except Mayor McKenzie being present, Acting Mayor May presided.

## IMMIGRATION MATTERS.

After reading and adoption of minutes of previous meeting the regular order of business was suspended to receive a delegation from the Board of Trade. Mr. A. T. Cushing was the spokesman of the party and laid before the council the advisability of establishing a city immigration department, the secretary of the board of trade to also act as city immigration offices. Estimates were presented of the probable annual cost of the undertaking. The total estimated expense was placed at \$3100. The board undertook to raise \$600 and asked that the council make a grant of the balance necessary. Mr. Farnes explained that the grant asked for next year would probably be less, as the fees to the board would probably be increased. Edmonton is now, in the eyes and ears of the East and this should be kept up. Sec. Treas. Sims thought the expenditure of the grant should be left entirely in the hands of the board.

Ald. Bellamy thought the expenditure could safely be left in the hands of the board and would move that the amount asked for be granted, the city council to have the approval of the secretary of the board.

Ald. McLeod was in sympathy with the idea of a bureau of information but this was a considerable sum and he thought the railway companies which have been aided by bonuses from the city were good advertising agents. He would move for the reference of the matter to the finance committee. Ald. Boyle would support Ald. McLeod's amendment. The reference of the matter would probably not delay matters more than a week.

Ald. Picard said he would support Ald. Bellamy's motion. The town had spent \$1000 last year in advertising. The grant asked for was only an increase of \$2000. He would move to pay the salary of the supposed officer.

The amendment carried and the matter was left in the hands of the finance committee.

## PETITION FROM THE BAND

The City Band petitioned for a grant of \$250 to purchase new instruments, mus. etc. Messrs. Lorne York and W. Clark addressed the council in support of the petition. Ald. Greisback pointed out that if a militia corps were established here a band would be started in connection, whereas the present grant would supply only a portion of the instruments necessary for a band, which would belong to nobody. Ald. Boyle was less enthusiastic about the band than before an election. Ald. Picard said the city had purchased instruments before and had money for their music. Ald. Clark and McLeod objected to sending city money for private enterprises. Ald. Bellamy thought the city should have a band but some one should be responsible for the instruments. The petition was not granted.

## WANTS IMMIGRATION OFFICE

C. W. Sutter wanted to know the town phone list and was to the Government building next the immigration hall for office purposes. It was referred to the Com-

BULLETIN CO. (Ltd.)

Our city has good water but good water can be made better, and Ross Bros. Ltd. have the thing to do it with. Have you seen their "Noxall Filter." It is the simplest Filter on the market, the most thorough and by a long ways the cheapest. Any family can afford one and they are made either for pressure to attach to your city water tap or gravity to filter from a pail or crock.

**You Wouldn't  
Eat Dirt**

**WHY drink it? Guard against disease and poison from impure water by using a**

**NOXALL**

**Germ Proof Water Filter**

Positively removes all germs and impurities. It is quick-flowing, simple, compact, cleans in a minute and does not require frequent renewal.

**CALL AT THE STORE FOR DEMONSTRATION**

**Ross Brothers, Ltd.**

Following is one of the many testimonials that speak of the work done by these Filters:—

## The Duquesne Chemical Laboratory.

Analatical Chemists and Chemical Engineers, Standard Bldg., 531 Wood St. Pittsburg, Pa., April 12, 1897.

GENTLEMEN:—Following is the report on the samples of water taken from the regular city supply, and also after it had passed through the Tripoli filter. Two filters were tested in this manner one having just been started and the other having been in use four months. The chemical analysis, made to show animal and vegetable pollution, includes the amount of ammonia, albuminoid ammonia and oxygen required to completely destroy such pollution. The bacteriological analysis is a count of the total number of living microbes in ten ordinary drops of water. This test was repeated in duplicate in case of the filtered samples. The results obtained on analysis are as follows:

Water from hydrant. From old filter. From new filter.			
Ammonia . . . . .	0.03	0.02	0.02
Albuminoid Ammonia . . . . .	0.20	0.09	0.08
Oxygen Consumed . . . . .	1.64	0.56	0.64

The figures represent parts of the impurities in one million parts of water. On cultivation, the hydrant water showed 890 bacteria in ten drops. That from the old filter 0, 2 and 4 in three tests, and from the new filter 3, 3 and 7. The above shows that the number of living microbes present has been reduced 99.6 per cent; the ammonia is reduced 39 per cent; the albuminoid ammonia 57 per cent, and the oxygen consumed 64 per cent. by passing through the filter, making the originally very bad water equal in cleanliness and purity to the best spring water. These results cannot be surpassed by any system of filtration with which we are familiar.

Respectfully submitted,

W. E. GARRIGUES CHIEF CHEMIST AND MANAGER.  
99.6 per cent. of living microbes eliminated by use of the filter.

The price is from \$3.00 up, the \$3.00 one fits on to any house tap and can be removed in two seconds. They are stone Filters and the stones can be cleaned as easily as any glass tumbler or delf cup. The Gravity filters are only \$4.50 and readily filter water from a pail into any other vessel placed to receive the filtered water. They are small and can be easily packed in a very small space to carry from place to place.

The above is correct cut of the Tap Filter, showing it in operation

The above is correct cut of the Gravity Filter, showing it in operation.

These Filters can only be had in Alberta from ROSS BROS. who are Sole Agents. The Trade supplied.

missioners with a recommendation that if possible it be rented at \$15 per month.

## COMMUNICATIONS

W. J. Morse, Vice-Pres. of the G. T. P., wrote assuring the council of his agreement that Edmonton was the correct location of the capital.

Short, Cross, Biggar and Ewing suggested that as the Horchinsky building had stood on the lane since the incorporation of the town it should be left for deleterious effects of time to remove it. The Commissioners were given power to act in the matter.

Mr. Wade wrote that he would be pleased to meet the council and discuss with them the publication of his pamphlet. The letter was filed.

G. W. R. Almon's request for the renewal or cancellation of the bond of the Secretary-Treasurer of the city was laid on the table for one week.

T. M. Knappen of the Western Canada Immigration Association enclosed a circular letter setting forth the work that organization was doing.

The Public Works Commissioner was given power to deal with a request from the public school board that a flat rate be granted them for water used at the Queen's avenue school.

E. T. Bishop wrote making claim for \$47.50 damages for A. R. Inglis for property said to have been left in the care of the police and not returned. The Commissioners reported that the articles had not been left with the police and city had no responsibility in the matter. The report was adopted and the complaint filed.

The Commissioners presented reports re the disposal of sewerage at the General Hospital, the diversion of the proposed Saskatchewan avenue sewer to the lane between 6th and 9th streets and the request for the extension of the telephone system to Beaver Hills. The reports were adopted and the hospital sewerage will be disposed during the summer by a system of irrigation furrows, the report re the diversion of the sewer was left over and the question of the extension of the telephone system is left until the general plans now being prepared are submitted.

The Finance Committee verbally reported re the sale of debentures and a debate arising thereon the council resolved to meet in special session on Thursday evening when the correspondence will be brought down and the whole matter gone into, with the city solicitor.

The Public Works Commissioner was asked to report on a petition asking that First street be opened up across Rat Creek.

## CURING THE FILLER

THE Pharaoh filler I select in Manicaragua—Province of Santa Clara, Cuba, is generally harvested in February.

The plants are cut down at daybreak—allowed to remain until eleven o'clock in the morning—until they are properly wilted—then taken to curing houses for drying.

After they are thoroughly dried they are allowed to become moist through atmospheric humidity and then made into "hands." Four of these hands constitute a carat, eighty carats make a bale.

After allowing it to age for three full years, in order to develop its superb fragrance and aroma, I make it up into "Pharaoh."

That's why there is a taste and odor of genuine tobacco in my Pharaoh Cigar.

# SENTENCED TO BE HANGED.

Continued from page one

Glendon, that he had taken King across the river near Lesser Slave Lake, was heard, followed by that of Jno. Baptiste Gerioux, who helped get King's horses from the reserve over to the settlement side of the Lake.

In quick succession came the evidence of Corporal McLeod, of Sergt. Anderson, Louis and Joseph Brunelle, Constables Parker and Low, all of whom testified to having had at different times, had the custody of the exhibits in evidence and that at no time has it been possible for them to be tampered with.

## KING-HAYWARD PARTNERSHIP.

Archibald West, a book-keeper from the hardware firm of Ross Bros., was the next witness and told of remembering two men coming in the store last fall and buying a bill of goods amounting to, as the books show, \$99.95. This was paid by a cheque of \$395.50, the balance of which he gave back a few days later which the cheque was certified. Witness knew nothing more about the men excepting that the goods were bought under the names of King and Hayward jointly.

Special Constable McDonald testified to having accompanied Sergeant Anderson and Chief Moosestos, and said he had helped find the exhibits as related in the testimony of these two men.

The court adjourned at noon with an Indian Xavier St. Arnaud on the stand.

## COURT RESUMED.

When court resumed after lunch A. McLean again took the stand and completed his evidence and was sharply cross-examined by Mr. Biggar, without bringing out new evidence of consequence.

## CROWN CASE CLOSED.

This was the last witness for the Crown and Mr. MacDonald announced that the case for the Crown was closed.

## MOVED FOR DISCHARGE.

Mr. Biggar moved for the discharge of the prisoner on the ground that no direct evidence had been produced to show that Hayward was dead or that if so, that the prisoner was connected with his death. The body had not been found nor had the fact of the prisoner having committed the alleged murder been established.

His Lordship declined to take the case from the jury.

## THE DEFENSE CALLED NO WITNESSES.

An expectant silence settled over the crowded court room as Mr. MacDonald rose to review the evidence and present the Crown's case to the jury. As the representative of the Minister of Justice, he claimed the right to also reply to the arguments of counsel for the defense. He complimented the jury on the exemplary patience with which they had sat through the long and tedious seven days of the trial and reminded them that the case was one of tremendous importance. Their verdict would decide whether the prisoner at the bar should be sent to the gallows or be released a free man. But in a measure their finding was a matter of consequence to every man, woman and child in the North West Territories, for only by the punishment of crime when such was found to have been committed could society be protected. He did not conceive it to be the duty of the Crown to press for the conviction of a supposed criminal, but rather to lay before the jury every fragment of obtainable evidence that from this they might draw the right conclusion.

Referring to a point raised by Mr. Biggar in his motion for discharge, Mr. MacDonald said it was absurd to claim that the body must be produced to establish a case of murder. But if the four bones produced in court were human, then a portion of a body had been produced and the proof was absolutely clear that some one had been killed.

The crown prosecutor then reviewed the evidence to establish the contention of the crown that these remains were those of Edward Hayward. The history of the party as it has been revealed in the evidence was gone over most carefully, the links of fact connected by suggestions of the most probable intervening facts and the whole chain presented to the jury. The presence of the articles in the slough was dwelt on and the improbability of Hayward having put them there himself and gone away. Mr. MacDonald spoke for considerably over an hour and repeated the crown's theory of the alleged crime in a most lucid manner. He concluded, "Gentlemen of the jury: I consider it my duty, acting for the Crown, to ask you to find a verdict of guilty. I am not governed by any personal animosity toward the prisoner and it is your duty to give him the benefit of any reasonable doubt."

## PLEA FOR THE DEFENSE.

Mr. Biggar then rose to plead the case of the accused. He pointed out the many disadvantages under which the defense labored, his own inexperience matched against an experienced crown prosecutor and an able associate counsel, and the lack of

## THE DAILY BULLETIN

Is the Paper of the City. Everybody reads it.

Advertise in THE DAILY and you reach all within the City limit every day, besides a good many elsewhere.

time and means to procure evidence which might throw a different light on many of the circumstances on which rested the Crown case. The prisoner had always said that the man who had been with him had gone away. The position of the defense was that he was not in a position to deny the charge, but that the Crown had not proven it. The case had to be proven that the bones found were human, and if they were, that this made the prisoner guilty. To give the decision to the Crown was to say there was no other reasonable explanation of the circumstances.

Mr. Biggar was still addressing the jury when court adjourned for dinner.

When court resumed the address was continued. Mr. Biggar went over the chain of evidence produced by the Crown, pointing out the missing links, suggesting other theories which might explain the circumstances. He dwelt in hushed tones on the lack of proof that Hayward was not now alive and in some part of northern British Columbia remote from telegraph lines and newspapers. He cited cases in which men had been hanged and afterwards found innocent, gave theories which might explain the presence of even human bones in the camp fire, intimated that Moosestos and some of the other Indians knew more about the case than might be expected of them and concluded with an appeal for consideration of the explanations other than that of the Crown for the circumstances presented by the evidence. With no material on which to work save that offered by the Crown witnesses he built up a masterly defense, pointing out every uncertainty in the Crown case, raising doubts wherever possible, leaving no circumstance untested, answering every argument, and asking for the prisoner the benefit of any uncertainty as to whether Hayward was dead, whether, if so, he was murdered and whether if murdered, the prisoner was the guilty party.

MR. MACDONALD REPLIED. The prisoner replied to the arguments advanced in a closely reasoned speech, claiming that the Crown had established the case.

## HIS LORDSHIP.

His Lordship then addressed the jury. The addresses of the counsel, he said, had relieved him of a large measure of duty. The decision to be reached with the jury and it was his duty to point out the facts to them. The case was the most serious a jury could be called upon to decide, as their verdict meant liberty or a sentence, the law allowing the judge no alternative. At the same time they had a duty to the public to perform. He briefly pointed out the crucial points in the evidence and left the case in their hands. They would be called upon at 10 o'clock this morning, and if no verdict had then been reached more time would be allowed them.

The crowded court room was then cleared and the prisoner taken to the barracks to await the decision of the jury. During the trial there has seldom been a vacant seat in court, but last evening the room was packed and crowds thronged the hallways, hopeless of gaining admission but unable to stifle the human interest in the trial of one man accused of murdering another. The demeanor of the prisoner has been steadily non-committal. His attitude has been one of intense and intelligent interest, but by no change of color or twitch of muscle has he given indication of guilt or protestation of innocence. His appearance has been rather that of an interested spectator than of a man on trial for his life.

# WANTED.

GOOD AGENTS FOR THE Oliver Typewriter

IN ALL

UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

APPLY TO THE CANADIAN OLIVER TYPEWRITER CO.,

183A T. JAMES STREET, MONTREAL.

## RUSSIANS FALL BACK

## EVACUATING THE SHAKHE VALLEY.

Fighting is now in progress north of Mukden, on the Russian Left.

## Bulletin Special.

Mukden, March 8th.—The Japanese have attacked the Russian position north of Mukden and forced the Russians to fall back a little. The Japanese are concentrating on the west front.

10 a.m.—A heavy cannonade is in progress causing the houses to tremble.

11 a.m.—Russian withdrawal from Shakhe river is in full progress. The losses on both sides is enormous. Russian casualties on the left flank Tuesday exceed 7,000.

London, March 9.—If Gen. Kuroki has not been overwhelmed, his position of the Hun river has been rendered untenable, and he has been forced to again fall back, abandoning immense supplies and munitions of war. The Japanese staff likewise nothing to leak out indicating a general plan, but facts have been learned that indicate a continuous and unchecked advance. The whole tone of recent despatches from Kuroki prepared the way for a disaster at least as great as that which overtook the Russian army on the Taiso river, which resulted in the abandonment of Liao Yang. That this is fully realized at St. Petersburg is shown by the pessimistic note of all despatches from there. Kuroki may again save his effective force, but it will be at the expense of Russian prestige. Since the strategic importance of the Shakhe River, a constant stream of troops and supplies has been reaching Kuroki and he has had ample time to prepare for this very struggle and he has on more than one occasion taken the initiative, as if feeling for an opportunity to strike. Yet by a brilliant piece of strategy Marshall Oyama, has caught him unawares. Gen. Kuroki's wide turning movement on the extreme east, and Nodzu's smashing blow on the centre forced Kuroki to weaken his own right to meet the more pressing danger. Hardly had this disposition been completed when the real attack developed with the swiftness of a blow. Oku, with the second army and Nogi with the heroes of Port Arthur suddenly swept into the open plain west of the railway and south of Mukden, crumpling up the Russian right and for a time sweeping all before them. Had not Kuroki held the interior lines this daring movement must have achieved a startling success, as it appears to have made his position at Mukden untenable and to have completely checked the grand assault which Kuroki was developing against the Japanese centre, and to have relieved the pressure on Kuroki to the extent that has enabled him to again menace the line of retreat. It is doubtful whether the Japanese will manage to intercept the line of retreat on the previously prepared positions at Tie Pass, but they will probably succeed in cutting off a considerable part of the Russian left. Besides this there is the abandonment or destruction of a vast quantity of stores. All this is to the credit of the Japanese account, but should Kuroki succeed in extricating his main army, the work may have to be done all over again at Tie Pass.

## Belleville Sensation.

Belleville, March 9.—A sensation with features similar to the Edmonton tragedy are reported from Hungerford. An elderly woman, Mrs. Adam Lloyd, was reported burned to death, her clothes having caught fire while her husband was in the barn. The body was buried. Then four play stories began to circulate and the body was exhumed. An inquest will be held tonight.

## Hamilton Fire

## Bulletin Special.

Hamilton, March 9.—Menkin's 4-storey brick and hat factory was burned this morning. The inmates of an adjoining house had a narrow escape. Loss \$25,000. Over one hundred thrown out of employment.

Now is the time to be interested in a few carefully grown

SHADE TREES,  
HARDY SHRUBS,  
A NICE HEDGE,  
VINES, ETC.  
FOR YOUR LAWN.

You should procure these grown in the north and have them selected for your individual property by one experienced in this line in Alberta, and they should then be guaranteed to grow. We are in a position to give you suggestions and to fulfil these requirements.

Special price this first season.

## CAPTURED BIG GUNS.

## PIERCED THE RUSSIAN CENTRE.

St. Petersburg Despatches Indicate that Kuropatkin's Line has been Broken

## Bulletin Special.

London, March 8th.—For ten days the Japanese and Russian armies in Manchuria have been engaged in a mighty conflict the issue of which not yet been reached. Although most of the news from the scene of battle comes by Russian sources and consequently may be supposed to present facts in as favorable light as possible for the Russian army it is evident that the Japanese have made some gains. Yesterday St. Petersburg had an unofficial report that Gen. Kuropatkin's centre has been broken and that thirteen guns have fallen into the hands of the Japanese. These guns which are of six and eight inch calibre were given permanent emplacement on the line of railroad near Shakhe station, this fact evidencing the confidence of the Russians that the Japanese could not penetrate their line.

## Telegraphic Briefs.

## Bulletin Special.

Montreal, March 8.—Le Journal Conservateur, discontinued publication this morning much to everybody's surprise. It will be absorbed by Le Canada, Liberal.

Toronto, March 8.—Resolutions are continually being wired in from all over the Dominion protesting against the separate school clause.

New York, March 8th.—With one collision in which twenty-nine persons were injured and none killed New York passed through the first day of the general strike on its rapid transit system.

Montreal, March 8th.—After lying in jail two years for a debt of \$75.00 an Indian Chief named Ignace was released on a petition of ill health.

Winnipeg, March 8th.—Since January 1st, the building inspector has issued permits for 150 buildings valued at \$500,000.

## HOSPITAL AID.

The Ladies' Aid Society of the Public Hospital wish to thank all who so kindly assisted them during hospital week and on Hospital benefit night at the rink.

During January and February the society raised the following sums for the hospital:—

Refreshments served at hockey match, January 12th, \$5.20.

Refreshments served at skating rink, January 13th, \$5.89.

Refreshments served to curlers during hospital week, \$72.65.

On Hospital benefit night at the rink, February 17th, the hockey team very kindly gave the aid 10 percent of their share and Mr. Secord 10 percent of his share the amount thus made being \$77.50.

Total receipts for January and February, \$210.47.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory

Coal.—Coal lands may be purchased at \$10 per acre for soft and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$7.50 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500 by 1,200 feet by marking out the same with two flag posts bearing location notices, one at each end of the line of the lode or vein.

The claim may be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.00.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid the locator may, upon having a survey made, and upon complying

with other requirements purchase the land at \$1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 150 acres. The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Pleaser Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Pleaser mining claims are generally 100 feet square, entry fee \$500, renewable yearly. On the North Saskatchewan river claims for either bar or beach, the former being 100 feet long, and extending between high and low water mark. The latter includes bar diggings but extends back to the base of the hill or bank but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained. Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each, for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lease's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have or who may receive entries for bar diggings on bench claims, except in the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold. The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease, one dredge for each fifteen miles or fraction, will be sufficient. Rental \$10 per annum for each mile of the river leased. Royalty at the rate of two and a half per cent, collected on the output after it exceeds \$10,000. Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable. The lease's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by a position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, \$100 per mile for first year, and \$10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory.—Creek, gulch, river and hill claims shall not exceed 250 feet in length measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 200 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days. If the claim is within ten miles of a mining recorder's office, one extra day allowed for each additional ten miles or fraction. The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinarily claims only.

Entry fee, \$10. Royalty at the rate of two and one-half per cent, on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase and free miners may work their claims in partnership by filing notices and paying fee of \$2.00. A claim may be abandoned and another obtained on the same creek, gulch or river by giving notice and paying a fee. Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made, and publishing notice in the Yukon Official Gazette.

Hydraulic Mining, Yukon Territory.—Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more, may be leased for twenty years, provided the ground has been prospected by the applicant on his own; it found to be unsuitable for placer mining, and does not include within its boundaries any mining claims already granted. A rental of \$150 for each mile of frontage and royalty at the rate of two and one-half per cent, of the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease, and not less than \$2,000 must be expended annually. The lease includes all base metals, quartz and coal, and provides for the withdrawal of unopened land for agricultural and building purposes.

Petroleum.—All unappropriated Dominion lands in Manitoba, the Northwest Territories and within the Yukon Territory, are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected an area of 640 acres. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery an area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of \$1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

Department of Interior, Ottawa, September, 1902. JAMES A. SMART, Deputy Minister of the Interior.

## CROSS SECTION OF PHARAOH CIGAR.

I INSIST on having perfect leaves in my Pharaohs. When each leaf is stripped there is no fibre or coarse matter left in—simply a clear leaf that smokes evenly and slowly, so that the rose-like aroma can be thoroughly enjoyed.

The tips of each leaf point to the burning end of the cigar—ensuring more perfect combustion and delicacy of aroma.

J. BRUCE PAYNE, Limited  
Granby, P.Q.

The filler of my Pharaoh is a selected leaf from the Manzanilla district of Cuba—that I myself buy in Cuba—the finer the celebrated Broadleaf of the Connecticut valley and the wrapper a genuine Sumatra I import direct from Holland.—J.B.P.

None genuine unless branded PHA-RO

The Canadian Northwest  
Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 16 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made personally in the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) or any person who is eligible to make a homestead entry under the conditions of the Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with building for their accommodation, cultivate 30 acres of his homestead, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years before the local agent, sub-agent, or Homestead Inspector. Before making application for patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Land Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands, in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,  
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable land are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

## We Will Buy

A 50c. Bottle of Ligozone and Give it to You to Try.

We want you to know about Ligozone, and the product itself can tell you more than we. So we ask you to let us buy you a bottle—a full-size bottle—to try. Let it prove that it does what medicine cannot do. See what a tonic it is. Learn that it does kill germs. Then you will use it always, as we do, and as millions of others do.

This offer itself should convince you that Ligozone does as we claim. We would certainly not buy a bottle and give it to you if there was any doubt of results. You want those results; you want to be well and to keep well. And you can't do that—nobody can—without Ligozone.

### We Paid \$100,000

For the American rights to Ligozone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Ligozone destroys the cause of any germ disease.

Ligozone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you.

Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Ligozone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Ligozone. It is the only way known to kill germs in the body without killing the tissue, too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

### Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Asthma Anemia Bronchitis Blood Poison Bright's Disease Bowel Troubles Coughs-Colds Constipation Colic-Croup Cystitis-Dysentery Debility-Dropsy Dropsy-Erysipelas Hay Fever-Influenza Kidney Diseases La Grippe Leucorrhea Liver Trouble Malaria-Neuritis Many Heart Troubles Piles-Promela Pleurisy-Quinsy Scrophulous-Syphilis Skin Diseases Stomach Troubles Throat-Troubles Tuberculosis

Fever-Gall Stones Gout-Grippe Gonorrhea-Diarrhoea Hemorrhoids Women's Diseases All diseases that begin with fever—all inflammations—all catarrhs—all contagious diseases—all the results of impure or poisoned blood. In serious debility Ligozone acts as a vitalizer, accomplishing what no drug can do.

### 50c. Bottle Free.

If you need Ligozone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Ligozone is, and what it can do. In justice to yourself, please, accept it to-day, for it places you under no obligation whatever.

Ligozone costs 50c. and \$1.

### CUT OUT THIS COUPON

For this offer may not appear again. Fill out the blanks and mail it to The Ligozone Company, 358-364 Wabash Ave., Chicago.

My disease is..... I have never tried Ligozone, but if you will supply me a 50c. bottle free I will take it.

Give full address—write plainly.

Any physician or hospital not using Ligozone will be gladly supplied for a test.

Conveniences:—Waterworks, sewer systems, telephone system, electric lighting system, all owned and operated by the city.

Board of Trade:—President, J. H. Morris, Secretary, F. E. Tims.

Immigration Officer:—C. W. Satter.

Educational Institutions:—Public and separate schools, high school, Alberta College.

CHURCHES:—Roman Catholic, Anglican, Presbyterian, Methodist, Baptist, German Baptist, Lutheran, Salvation Army.

TRAIN SERVICE:—Leaves for Strathcona 7.45 and 15.30. Arrives from Strathcona 9.15 and 11.50.

## LOCAL

—Train on time.

Probs.—Fine and mild.

—A large addition is being built to the Windsor Hotel, Strathcona.

—The city council meet tonight.

—The Grand Lodge of the A.O.U.W. for Manitoba and the Territories is in session at Calgary.

—The county Orange Grand Lodge, L. O. L., meet in Medicine Hat next week.

—At Brandon, Portage la Prairie won the M. & N. W. championship, defeating Carberry, by one goal, score 2 to 1.

—The members of Jasper Lodge No. 6, K. of P., are requested to meet at Hueston's Hall, March 10th, at 12.30 to attend the funeral of Mrs. Charles Laver, by order of the C. C.

—Mr. J. J. Duncan McIntyre, 25 Athol street, Wolverhampton, England, writes the following: "Please put my name on your list as a subscriber for your semi-weekly. I am very much interested in the new country and especially your assistance and would be pleased to correspond with any of your readers and give any news from the old country."

—An Epworth League convention is to be held in McDougall Methodist church on Wednesday and Thursday March 16th and 17th. The convention opens at 7.30 on Wednesday evening and holds three sessions on the following day. It is a district convention, comprising the Edmonton and Vermilion Districts. The most suitable room which has been secured to prepare papers and give addresses on five problems in young peoples work. Aside from prominent local talent, the Rev. Mr. Woodworth, of Winnipeg, has been secured for the second evening. All persons and especially those interested in Christian work among young people are cordially invited to attend any or all of the four sessions to be held. The choir will furnish special music for the session on both days.

## PERSONAL

Mrs. Francis went to Calgary, this morning.

Mrs. J. W. Morris came up from the South last night.

Mayor McKenzie returned last evening from the East.

## Resolutions Adopted.

At a mass meeting of citizens called by the Mayor of Medicine Hat, on Friday evening the following resolutions were adopted:

That this meeting is of the opinion:

1. That the dealing with the Education Question be left to the people of the country affected by the bill.

2. That the funds should be in the hands of the Provincial Government for administration; or at least that they should be retained by the Dominion Government for only a small term of years and that the minerals, forests, and swamp lands belong to the Province from the 1st July next.

3. That freedom regarding elections existing in older provinces should obtain in proposed provinces of Saskatchewan and Alberta without any restriction.

4. That the placing of the dividing line at the 4th meridian is a great hardship to the ranching industry in that the laws governing a province consisting of a farming country will conflict with the laws required in a ranching country.
